ANTARCTICA, AN EXPEDITION TO PLANET EARTH

Embark on a voyage that will awaken your senses and leave you forever changed.

© K. Parada

© J. Bullied

↑ Join an unparalleled adventure

→ Explore Antarctica

← Create memories of a lifetime

LANDSCAPE

A land that holds 90% of Earth's ice, Antarctica stuns visitors with its awe-inspiring beauty. See peaceful bays dotted with colossal icebergs, cruise along deep fjords with massive glaciers, and be amazed by sharp snowy peaks that jut out of the sea.

ADVENTURE

Feel the spray of seawater on your cheeks as you cruise in a Zodiac to shore. Follow in the footsteps of early explorers as you hike on Antarctic soil. Join our optional Sea Kayaking and Hiking & Snowshoeing programs and discover more from different vantage points.

WILDLIFE

Penguins, whales, seals, and seabirds congregate in Antarctica and South Georgia during the austral summer. Present in large numbers, you can move along in their world and find endless inspiration for photographs.

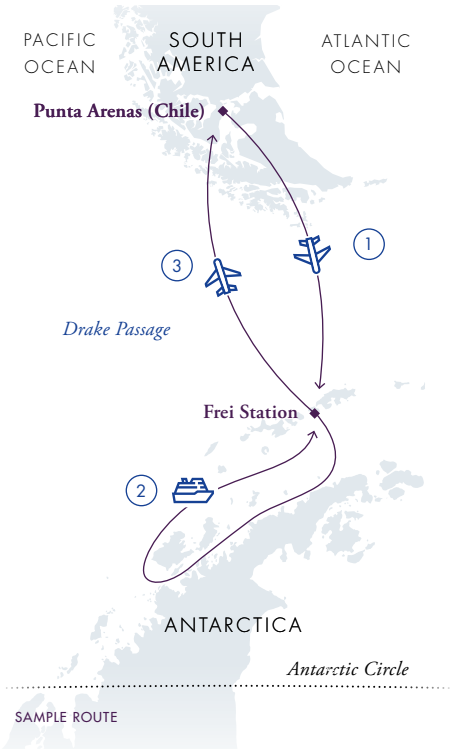

MEMORIES

Setting foot on the Seventh Continent is a privilege and an honor. You will bring home unforgettable tales, arousing curiosity and admiration. You will create inspiring narratives that will be cherished and recounted for years to come.

↑ Follow the footsteps of early explorers

→ Reach Antarctica on a two-hour flight

THE ANTARCTIC AIR-CRUISE

In 2003, we pioneered a new way to travel to Antarctica and what we believe is a better way — providing quick, intimate access to the White Continent.

Before Antarctica21, travelers who wanted to reach the Antarctic Peninsula had only one option: a two-day sail across the notoriously rough seas of the Drake Passage. However, our boutique wilderness adventures have offered a more comfortable alternative.

FLY THE DRAKE

Our two-hour flight takes you from Punta Arenas, the Chilean gateway to Antarctica, where you then board your expedition ship. No stormy crossing. No seasickness. Just quick, total immersion in your Antarctic adventure.

EXPLORE ANTARCTICA

Our small expedition vessels are more like private yachts, offering direct access to areas along the Antarctic shore that larger ships simply can't reach. Since we have fewer guests, you get on and off faster, so your time ashore is focused where it should be: savoring every moment of a travel experience unlike any other.

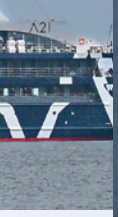

KEY BENEFITS

COMFORT — Avoid storms in the Drake Passage

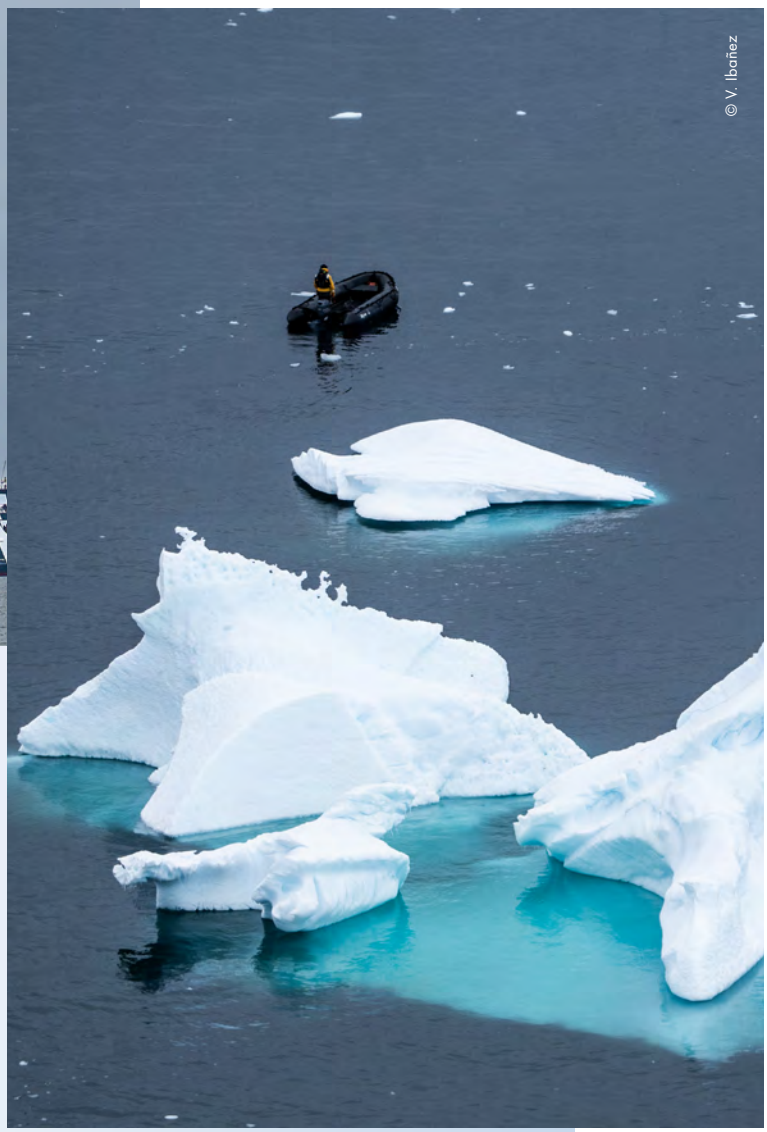

SPEED — Get to Antarctica quickly and save time

EXCLUSIVITY — Enjoy an upscale small-ship experience

© J. Bullied

WHAT MAKES ANTARCTICA21 UNIQUE?

© V. Ibañez

As a niche specialist, we dedicate 100% of our time and resources to creating your Antarctic adventure.

AIR-CRUISE EXPERTS

We pioneered the air-cruise to Antarctica, and it remains our focus. As specialists, we intimately understand how to coordinate air and sea operations in the changeable Antarctic environment. We have completed over 300 fly-and-cruise expeditions, more than any other company, and we bring that experience to your journey.

ANTARCTICA IS OUR NEIGHBOR

Our company was founded in Punta Arenas, Chile, the gateway for the first Antarctic explorers. As a local company in this remote region, we have built a solid infrastructure and an extensive network of specialized local staff and key relationships to support your expedition.

EXPLORERS HOUSE: A WARM WELCOME

Located only a few blocks from your hotel, Antarctica21's new Explorers House is your exclusive base in Punta Arenas. This private club is purpose-built for you to prepare for your expedition by attending briefings, and more.

FLIGHT ADVANTAGES

Unlike some companies, Antarctica21 uses a single flight to carry all guests on an expedition to and from the White Continent. We are the only company that has priority over the flight window, allowing us to choose the optimal flight time based on conditions. For you, this means efficient operations and a reduced chance of weather-related delays.

BOUTIQUE SHIPS

Our small expedition ships welcome a maximum of 88 guests. Up to 100 guests can disembark in Antarctica at one time, our experience is faster and smoother. You spend more time exploring, not waiting for your turn.

HIGH STAFF-TO-GUEST RATIO

On every journey, our Antarctica21 team includes at least 13 expert polar guides, and their number one priority is ensuring you have an unforgettable experience. Our team includes experts on the region's unique geography, natural history, wildlife, and ecology, and they love sharing their in-depth knowledge with you.

OUR COMPANY

Antarctica21 was founded in 2003 by visionaries who reimagined Antarctic travel, pioneering the fly-and-cruise expedition. For over two decades, we have led more Antarctic air-cruises than any other operator, setting a gold standard in polar exploration.

From the invention of the Antarctic air-cruise to building the first Antarctica21 ship, we continue in our quest for innovation and sustainability.

OUR STYLE AND PHILOSOPHY

As a boutique specialist, we design and deliver adventurous yet elegant small-scale expeditions to Antarctica. We aim for the perfect balance between active exploration and high-quality hospitality.

OUR TEAM

International Antarctic pilots, experienced sea captains, expert polar guides, academics, and seasoned travel professionals create the Antarctica21 experience. As an accredited provider company with PTGA (Polar Tourism Guides Association), we ensure that our team is trained to the highest polar guiding standards. With passion, creativity, and teamwork, each expedition is handcrafted, unique, and personal.

COMMITMENT

Antarctica21 is the leader in this fast-growing segment of Antarctic tourism, constantly developing and innovating its programs and operations. As a member of the International Association of Antarctica Tour Operators (IAATO) and a CarbonNeutral® certified company, we consider every detail of our planning and operations, working to reduce our environmental impact.

ITINERARIES

@K. Parada

↑ Artist's rendering of Magellan Discoverer

MAGELLAN DISCOVERER'S INAUGURAL AIR-CRUISE

10 Days — 9 Nights

Operated on Magellan Discoverer

You can view the full description of this itinerary on our website: antarctica21.com/iv

ITINERARY

DAY 1 — **Depart Punta Arenas, Chile.** Sail along the Strait of Magellan towards Cape Froward, the southernmost tip of the American landmass, and continue south.

DAY 2 — **Explore Southern Patagonia.** Escorted by Peale's dolphins, the ship will navigate along the Glacier Alley, offering an opportunity for a Zodiac excursion at the Garibaldi Glacier.

DAY 3 — **Beagle Channel.** After spending some free time in Ushuaia, the ship sets sail along the Beagle channel towards Antarctica.

DAY 4–5 — **Drake Passage.** Sail the Drake Passage and reach the South Shetland Islands in Antarctica.

DAY 6–8 — **Explore Antarctica.** Cruise between the South Shetland Islands and the western coast of the Antarctic Peninsula, sailing along ice-filled fjords and among spectacular icebergs. Each day, disembark by Zodiac and explore the landscape. The Expedition Team sets the voyage route to take advantage of the ever-changing opportunities provided by Nature, crafting a unique and extraordinary experience on each landing.

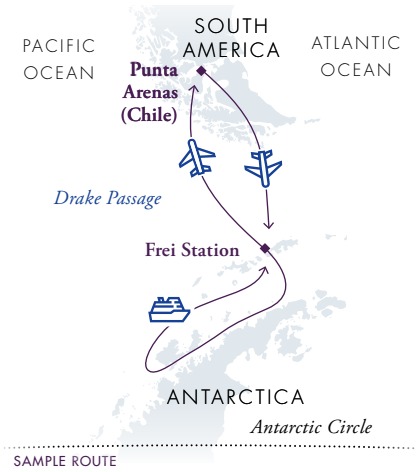

DAY 9 — **Scheduled return flight from Antarctica.** Return to King George Island and board the flight back to Punta Arenas. Upon arrival, transfer to your hotel for the night. (Note: Meals in Punta Arenas are at your leisure and not included in the program).

DAY 10 — **End of the air-cruise.** After breakfast, a transfer takes you to the Punta Arenas airport for your onward flight.

↑ Explore farther south

POLAR CIRCLE AIR-CRUISE

10 Days — 9 Nights

Operated on Magellan Discoverer and Magellan Explorer

You can view the full description of this itinerary on our website: antarctica21.com/pc

ITINERARY

DAY 1 — **Start of the air-cruise.** Arrive to Punta Arenas, and attend a briefing and a welcome dinner at Explorers House with your fellow travelers.

DAY 2 — **Scheduled flight to Antarctica.** Fly to King George Island and board your boutique expedition vessel in Antarctica.

DAY 3–8 — **Explore Antarctica.** Cruise between the South Shetland Islands and the western coast of the Antarctic Peninsula, sailing along ice-filled fjords and among spectacular icebergs while enjoying the company of seabirds, penguins, seals, and whales. Each day, disembark by Zodiac and explore the landscape together with expert polar guides. On board the ship, attend an engaging program of educational presentations and enjoy spectacular views from the lounge while sharing your daily adventures with fellow guests.

The goal of this expedition is to sail far south in an attempt to reach the Antarctic Circle.

DAY 9 — **Scheduled return flight from Antarctica.** Return to King George Island and board the flight back to Punta Arenas. Upon arrival, transfer to your hotel for the night. (Note: Meals in Punta Arenas are at your leisure and not included in the program).

DAY 10 — **End of the air-cruise.** After breakfast, a transfer takes you to the Punta Arenas airport for your onward flight.

← Back To Summary

↑ Discover the largest King penguin colonies in South Georgia

ANTARCTICA & SOUTH GEORGIA AIR-CRUISE

18 Days — 17 Nights

Operated on Magellan Explorer

2026 — 27 SEASON

You can view the full description of this itinerary on our website: antarctica21.com/as

ITINERARY

DAY 1 — **Start of the air-cruise.** Arrive to Punta Arenas, and attend a briefing and a welcome dinner at Explorers House with your fellow travelers.

DAY 2 — **Scheduled flight to Antarctica.** Fly to King George Island and board your boutique expedition vessel in Antarctica.

DAY 3–6 — **Explore Antarctica.** Cruise between the South Shetland Islands and the western coast of the Antarctic Peninsula, sailing along ice-filled fjords and among spectacular icebergs while enjoying the company of seabirds, penguins, seals, and whales. Each day, disembark by Zodiac and explore the landscape together with expert polar guides. On board the ship, attend an engaging program of educational presentations and enjoy spectacular views from the lounge while sharing your daily adventures with fellow guests.

DAY 7 — **Elephant Island.** Sailing north, we hope to stop at Elephant Island, where the crew of Shackleton's Endurance found refuge while he and five handpicked men carried on to South Georgia.

DAY 8–9 — **At sea, sailing to South Georgia.**

DAY 10–13 — **Explore South Georgia.** The island features majestic mountains, massive glaciers, grassy uplands, and deep fjords. Visit the former whaling outpost of Grytviken, where you may pay your respects at the simple grave of Ernest Shackleton. At St. Andrew's Bay be overwhelmed by the sight of 150,000 king penguins. Explore Drygalsky Fjord and discover macaroni penguin colonies and South Georgia's largest glacier. At the peak of the breeding season, it is said to have the highest concentration of wildlife per square meter on the planet. If the weather is favorable, visits are also planned at Fortuna Bay, Salisbury Plains and Elsehul Bay.

DAY 14–16 — **At sea, sailing towards South America.**

DAY 17 — **At sea and Beagle Channel.** Approach the South American continent and sail along the Beagle Channel. Take in the beauty of Tierra del Fuego and Navarino Island as you make your way to Ushuaia.

DAY 18 — **End of the air-cruise.** Arrive to Ushuaia, Argentina, where your journey ends.

↑ South Shetland Islands

ANTARCTICA EXPRESS AIR-CRUISE

6 Days — 5 Nights

Operated on Magellan Discoverer and Magellan Explorer

You can view the full description of this itinerary on our website: antarctica21.com/ae

A reverse itinerary of this expedition is operated on Magellan Discoverer from March 4 to 10, 2027.

ITINERARY

DAY 1 — **Start of the air-cruise.** In the afternoon, board your boutique vessel in Ushuaia, Argentina, at the pier. After boarding, sail along the Beagle Channel towards Puerto Williams, Chile, the southernmost town in the world. Explore the surroundings before navigating south to the Drake Passage.

DAY 2 — **Sail the Drake Passage.**

DAY 3 — **Cross the Drake Passage.** As you sail through the Drake Passage en route to King George Island, in the South Shetland Islands, attend an engaging program of lectures and presentations. In the company of expert guides, watch for wildlife from the lounge or the outside decks. You may spot magnificent seabirds, such as albatrosses and petrels, as well as different species of whales on their way south to Antarctica.

DAY 4 — **Cross the Drake Passage and reach Antarctica.** After crossing the Antarctic Convergence, the environment changes noticeably. Keep your camera ready, as this is the time to watch for the first icebergs and the first sight of Antarctic land. After reaching the South Shetland Islands, sail in ice-filled bays while enjoying the company of seabirds, penguins, seals, and whales. Board a Zodiac for your first memorable shore visit to a penguin colony. Exploration will continue well into the evening, taking advantage of the long Antarctic daylight.

DAY 5 — **Antarctica and scheduled return flight.** Upon reaching King George Island, disembark at Fildes Bay. You then board a vehicle and transfer to the aircraft. Bid farewell to Antarctica as you board the flight back to Punta Arenas. Upon arrival, transfer to your hotel for the night. (Note: Meals in Punta Arenas are at your leisure and not included in the program).

DAY 6 — **End of the air-cruise.** After breakfast, a transfer takes you to the Punta Arenas airport for your onward flight.

MAGELLAN DISCOVERER

Hybrid-Electric
Sophisticated Design

Specifications

Passengers:	Up to 88 guests on air-cruises
Expedition Staff & Crew:	67
Lifeboats:	2, fully enclosed, capacity of 124 (in addition to 8 life rafts, capacity of 120)
Length:	94 m (308.4 ft)
Breadth:	17.2 m (56.4 ft)
Draft:	4.5 m (14.8 ft)
Propulsion:	Hybrid-Electric Diesel engines, 2 x 1,800 kW
Ice Class:	PC6
Cruising Speed:	14 knots in open water

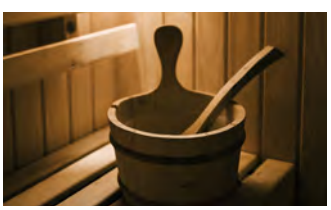

Magellan Discoverer is our newest addition to the fleet, purpose-built to enhance our Antarctic air-cruise experience. Crafted in Chile, the vessel meets the latest Polar Code standards and will start service in 2026.

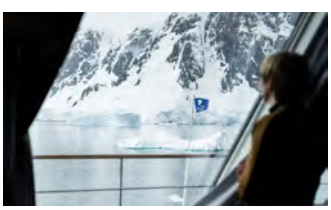

The boutique vessel offers five accommodation categories. All cabins feature private balconies and a king-size bed that can be converted as two twin beds. Each cabin has a wardrobe, individual heating control, a sitting area, and a private bathroom with a shower.

On board, guests can enjoy a panoramic observation lounge and presentation room equipped with cutting-edge audio-visual technology. The ship also boasts a spacious dining room, a bar, a library, a meeting room, a gym, a sauna with an open view, and a medical clinic.

The top deck features a 360° walking track, providing unparalleled vantage points for viewing wildlife and enjoying the Antarctic landscape. With a fleet of 10 Zodiacs, the vessel is perfectly suited for daily outdoor excursions with fast disembarkment to get all guests on land at once.

Magellan Explorer is a modern expedition vessel custom-built for our Antarctic fly-cruise expeditions. The ship was constructed in Chile to the latest Polar Code specifications and launched in 2019.

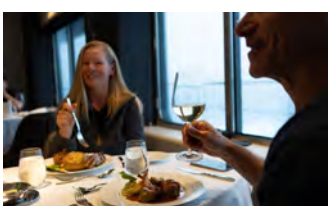

For our air-cruises, Magellan Explorer has seven categories of accommodation, including dedicated single cabins. All cabins except Porthole Cabins feature private balconies. All double cabins, except four, have two twin beds that can be configured as one king-size bed. All cabins feature a wardrobe, an individually controlled heating system, a sitting area, and a private bathroom with a shower.

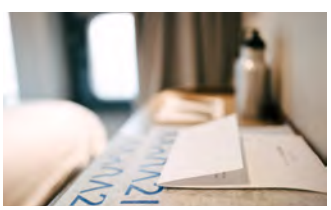

The ship features a glass-enclosed observation lounge and presentation room with state-of-the-art audio-visual equipment, a spacious and stylish dining room, a well-stocked bar, a library, a meeting room, a gym, a sauna, and a medical clinic. The forward-facing observation deck leads to the ship's bow, which is accessible to guests to offer proximity to marine wildlife. The ship has a fleet of 10 Zodiacs that are well suited for disembarking and wildlife watching.

The fitness center aboard Magellan Explorer has been designed and built by the professionals at Anytime Fitness, the world's only fitness company with boutique gyms on all seven continents. For more information, see anytimefitness.com.

AIRCRAFT

Specifications

Model:
BAE 146-200,
AVRO RJ 85,
AVRO RJ 100

Capacity:
Up to 88 guests

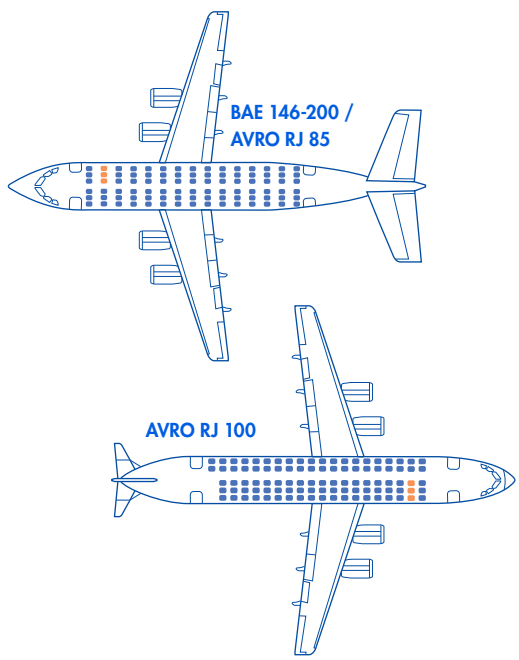

Engines:
4 turbofans Honeywell ALF 502R-5

Length:
28.55 m (93.8 ft)

Cruise Speed:
750 km/h (465 mph)

Wingspan:
26.34 m (86.5 ft)

Service Ceiling:
9,500 m (31,200 ft)

We use three similar aircraft for flight operations: the AVRO RJ 85, the AVRO RJ 100, and the BAE 146-200. These aircraft were manufactured in the United Kingdom by British Aerospace (which later became part of BAE Systems). They are high-wing aircraft with short runway requirements, which make them particularly suited for this kind of destination. It is operated by Aerovías DAP, which has over 40 years of experience flying in Patagonia and Antarctica.

DEPOSIT

An initial deposit of $4,000 USD per person is required to book a cabin, except for Antarctica Express Air-Cruises, where the deposit is $1,500 USD per person.

The balance is due in full 120 days prior to departure. Payments can be made by wire transfer or credit card via PayPal, and more payment options are available via WeTravel. Wire transfer costs are to be borne by the sender. Credit card payments via PayPal are subject to a 2.7% fee (however, the 2.7% fee is not charged on the deposit). Payments received after the due date are subject to a $250 USD per person late payment fee.

CHILDREN

Antarctica21 welcomes children aged 8 and above on its tours, provided they meet all passenger requirements: 1.20 meters (3.9 feet) tall, weighing 30 kilos (66 pounds) or more, and accompanied by a responsible adult who takes full responsibility for the minor and signs a waiver. A 5% discount on the rate per person is offered for children under 12 years.

SINGLE TRAVELERS

Single travelers can choose between:

- Booking a dedicated Single Cabin: no supplement is applied for single use of dedicated Single Cabins.
- Booking a Twin Cabin for single use: an 85% supplement will be added to the rate per person when booking a limited number of Porthole and Veranda Cabins on Magellan Explorer, and Deluxe Veranda Cabins on Magellan Discoverer. A 100% supplement applies when booking all other categories.
- Sharing a cabin with another passenger of the same gender: this is available on Magellan Explorer in Porthole and Veranda Cabins, and on Magellan Discoverer in Deluxe Veranda Cabins. Antarctica21 will take care of finding the matching companion. Passengers who book a cabin on a shared basis are accommodated in single rooms at the hotel in Punta Arenas. Those guests must pay a Single Hotel Room Supplement that varies based on the departure selected. Please inquire at the time of reservation.

KAY = Sea Kayaking. We recommend booking the Sea Kayaking program upon reservation of your air-cruise.
HS = Hiking & Snowshoeing in Antarctica, available for booking on board the ship at $85 per person, per excursion.
* = Activities performed only in Antarctica
R* = Denotes reverse itinerary, with start in Punta Arenas and end in Ushuaia.
Note: Rates are per voyage and per person in US dollars based on the selected cabin and occupancy.

Note: Single travelers who use CPAP machines or other assistive devices, as well as those who have conditions that can be disrupting to others (loud snoring, sleepwalking, etc.), can only book their air-cruise in a Single Cabin or a Twin Cabin for single use. They cannot book on a twin-share basis.

A21 LOYALTY BENEFIT

The A21 Loyalty Benefit gives our returning travelers a 5% reduction on their next trip, including our Antarctic & Sub-Antarctic Sea Voyages. The reduction applies to all repeat travelers with Antarctica21. We hope to see you again!

FAMILY SAVINGS

For bookings of 6 travelers or more, contact your sales agent to receive a 5% reduction and information about special booking conditions.

CHARTERS AND RESERVATIONS BY GROUPS

Full-ship charters and reservations made by and for groups of 8 travelers or more are subject to payment and cancellation conditions to be agreed upon contract.

CANCELLATION

Cancellation of a reservation must be done via email. The following terms will apply:

- Cancellations received up to 210 days prior to departure: there will be a full refund of the deposit received, less a $1,000 USD per person processing fee that will be retained by Antarctica21.
- Cancellations received between 209 and 120 days prior to departure: there will be no refund of the deposit paid.
- Cancellations received between 119 and 90 days prior to departure: there will be a refund of 10% of the amount paid, provided that the final payment has been received.
- Cancellations received between 89 and 60 days prior to departure: there will be a refund of 7.5% of the amount paid, provided that the final payment has been received.
- Cancellations received between 59 and 30 days prior to departure: there will be a refund of 5% of the amount paid, provided that the final payment has been received.
- Cancellations received between 29 and the departure date: there will be no refund whatsoever.

Upon cancellation, the passenger releases the canceled cabin back to Antarctica21.

Antarctica21 strongly recommends all guests to protect their travel investment by purchasing a trip cancellation and interruption insurance policy as protection against unforeseen events.

TERMS & CONDITIONS

For a complete list of Terms and Conditions, visit www.antarctica21.com/termsconditions, including important details about the following points:

- Booking Terms
- Payment, Cancellation and Refund Policies
- Responsibility
- Itinerary
- Admittance
- Optional Adventure Activities
- Baggage
- Law and Jurisdiction

INCLUSIONS & EXCLUSIONS

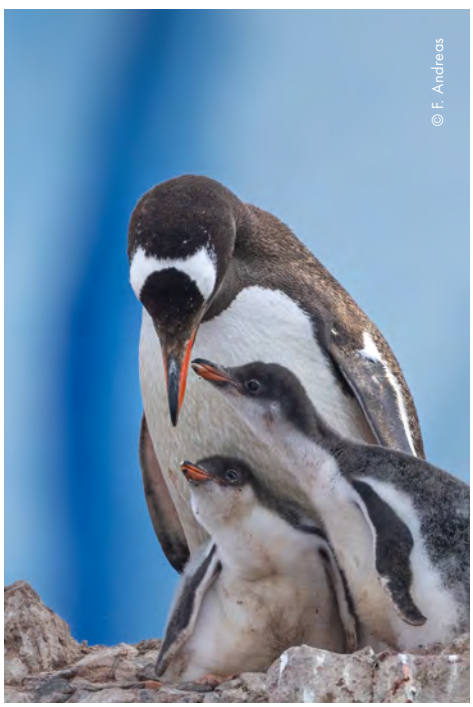

INCLUDED IN THE RATE

- Ship cruise as indicated in the program corresponding to each voyage.
- Flight from Punta Arenas to Frei Station on King George Island and/or vice versa as indicated in the program corresponding to each voyage.
- For air-cruises starting in Punta Arenas, Antarctica21-exclusive group transfers airport/hotel on Day 1 and last day of the expedition.
- For air-cruises starting in Punta Arenas, one night at the Cabo de Hornos hotel in Punta Arenas or similar with breakfast.
- One night at the Cabo de Hornos hotel in Punta Arenas or similar with breakfast on the day of the scheduled return flight from Antarctica.
- For air-cruises starting in Punta Arenas, enjoy special access to Explorers House where you will enjoy a welcome dinner on Day 1.
- Antarctica21-exclusive group transfers airport/hotel on the day of the scheduled return flight from Antarctica, and Antarctica21-exclusive group transfers hotel/airport on the last day of the air-cruise.
- Daily buffet breakfast and lunch on board the ship, offering a variety of dishes.
- Three-course dinner served daily on board the ship offering a choice between one of three main courses.
- Wine, beer, juice, and soft drinks served with lunch and dinner on board.
- Coffee, tea, chocolate, cappuccino, water, and snacks on board the ship throughout the expedition.
- All guided shore excursions.
- Lectures and entertainment on board.
- Comprehensive pre- and post-voyage information material.
- Loan of waterproof boots for landing in Antarctica.
- Access to exclusive content on the Antarctica21 app on board Magellan Explorer and Magellan Discoverer.
- For Penthouse Suites on board Magellan Explorer and Grand Veranda Suites on Magellan Discoverer, complimentary premium internet service. For all other categories, complimentary standard internet service. Conditions apply.
- Contingency Plan as described on page 43.
- IAATO passenger fee.

NOT INCLUDED IN THE RATE

Anything that is not specifically listed under the "Included in the Rate" section. For example:

- Accommodation, meals, excursions, and transfers other than those included in the itinerary and the Contingency Plan corresponding to each voyage. Specifically, dinner in Punta Arenas upon return from Antarctica is not included.
- Beverages purchased at the ship's bar.
- Personal travel and medical insurance.
- Extra expenses (communication, laundry, souvenirs, etc.).
- Gratuities.
- Visas for Chile, Argentina and/or United Kingdom (for South Georgia), passport expenses, and any arrival and/or departure tax, if applicable.

EXPERIENCES & ADVENTURES

© F. Andreas

EXPLORERS HOUSE

Antarctica21's Expedition Center

Explorers House is an exclusive facility in Punta Arenas where our team helps you prepare for your expedition. Here, you can attend briefings, interact with our expert team before your journey, review checklists, and get answers to any questions you may have so you will arrive to Antarctica confident and ready for the adventure ahead.

With an area of over 2,000 square meters (21,500 sq ft), you can use this facility like your private club. Relax with a cup of coffee, review a wonderful collection of Antarctic books, and get to know your travel companions as excitement over the upcoming adventure builds.

Explorers House was designed by renowned architects and was built using sustainable building practices. It features a solar panel system to produce electricity and heat.

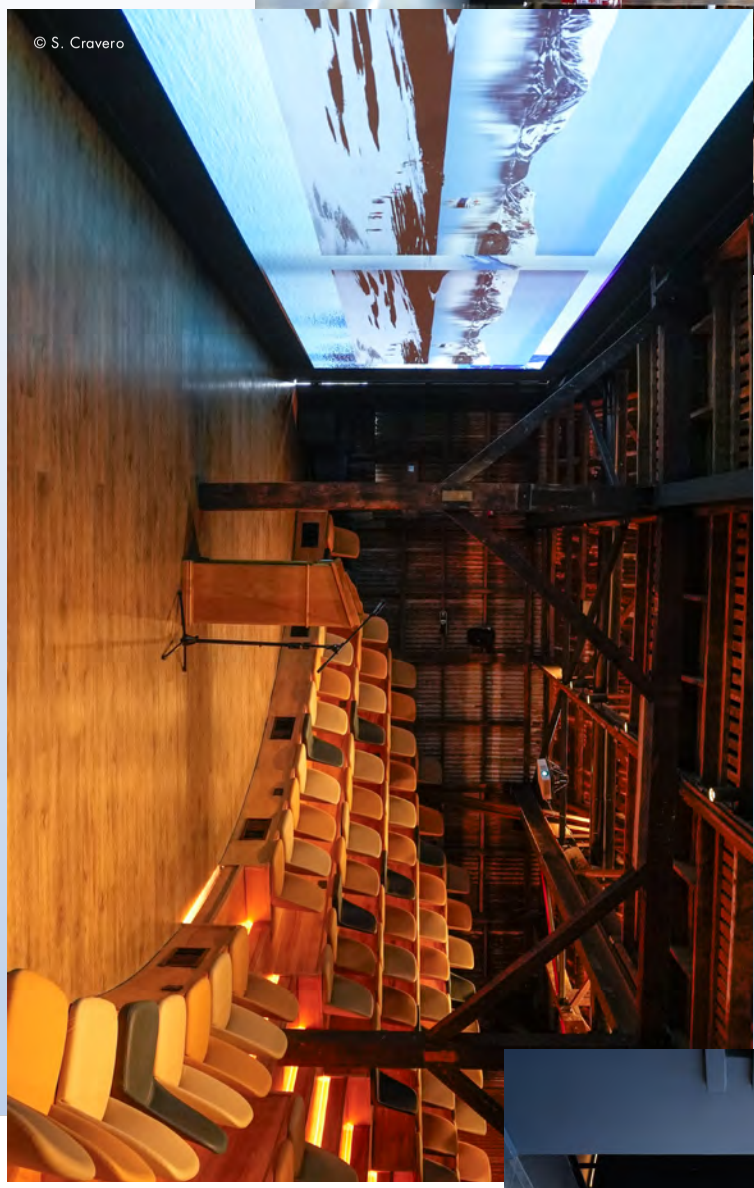

HIGHLIGHTS

Here are some of the services and amenities that you can find at Explorers House:

- Food and drink services
- Library
- Relaxing lounges
- Amphitheater-style presentation room
- Gift shop
- Interactive touch screens
- Patio

SEA KAYAKING

Experience Antarctica from the unique vantage point of a sea kayak, where you can see the majestic landscape, from its icebergs to its thriving wildlife as you paddle through the icy waters.

↑ Observe wildlife from a different perspective

THE PROGRAM

The sea kayaking program is an optional small-group experience limited to a maximum of 20 participants per expedition who will go on excursions in two separate groups of 10 guests each on an alternating basis. Each group of 10 guests enjoy one or two excursions throughout the voyage, under the guidance and leadership of an experienced Kayak Master.

During your trip in Antarctica, your Kayak Master will work with the Expedition Team to look for the best kayaking opportunities based on suitable and safe weather conditions. A dedicated safety Zodiac will support the group. Each kayaking excursion will be approximately one and a half hours. The Kayak Master will strive to offer some time at the landing site so you can also explore on land.

To take part in the kayaking program, you must have previous experience, know how to swim, and be able to communicate in English. The minimum age for participation is 15 years. Space is limited.

For complete details, please review the "Sea Kayaking" document, which is available upon request.

$995 USD per person per expedition
Book at the time of reservation

Payment of the sea kayaking participation fee is due at the time of reservation. In the case of cancellation 120 days or more prior to departure, Antarctica21 will refund 50% of the participation fee. In the case of cancellation 119 days or less prior to departure, there will be no refund.

Note: Sea Kayaking is offered as a full program of one or two excursions delivered throughout the expedition to the same group of participants. It is not possible to join individual, one-off kayaking excursions or rotating participation among family members or groups of friends traveling together.

HIKING & SNOWSHOEING IN ANTARCTICA

See more of the Antarctic landscape with our Hiking & Snowshoeing program. Excursion locations are selected for their scenic appeal and will provide unique viewpoints for your photographs.

↓ Hiking in Antarctica

THE PROGRAM

The Hiking & Snowshoeing program is an optional small-group experience offered on board the ship as a one-off excursion. A Hiking & Snowshoeing Guide leads the group.

During your trip in Antarctica, the Hiking & Snowshoeing Guide will work with the Expedition Leader to look for the best hiking or snowshoeing opportunities within the trip's schedule, based on suitable and safe weather conditions. Each excursion will be approximately one and a half hours in duration. Depending on the time of the year and the conditions of the terrain, some excursions may require the use of snowshoes and/or trekking poles, which Antarctica21 provides. November, December, and January, generally offer good snowshoeing opportunities. Snowshoes are usually not needed in February and March. Participants can select the excursions they want to join, paying a per-excursion fee. The activity can be booked and paid for on board the ship.

To take part in the Hiking & Snowshoeing program, you do not need previous experience. However, your level of physical fitness should be good. The minimum age for participation is 15 years.

For complete details, please review the "Hiking & Snowshoeing in Antarctica" document, which is available upon request.

$85 USD per person, per excursion
Book on board

A GLIMPSE INTO EXPEDITION CRUISING

Expedition cruising redefines travel, focusing on adventure, discovery and connection in remote destinations.

Antarctica21's approach creates intimate experiences that deeply connect guests with Antarctica. Our custom-designed small vessels, coupled with a team of passionate polar experts, offer a perfect blend of boutique comfort and adaptability, setting us apart from conventional cruises.

HUMAN-SCALE TRAVEL

Our small vessels provide unparalleled flexibility and personalization. With low passenger capacity and a high guide-to-guest ratio, we offer spontaneous and calculated itinerary adjustments for unique wildlife encounters. Unlike larger ships, all our guests can disembark simultaneously, maximizing time ashore.

ADAPTING TO ANTARCTICA'S RHYTHMS

Antarctica's unpredictable conditions demand a flexible approach. Drawing on over two decades of experience, Antarctica21 expertly navigates these challenges. We swiftly and strategically adapt our plans, ensuring rich exploration opportunities.

A TRANSFORMATIVE JOURNEY

Our expeditions create a small community of explorers. Guests become active participants, contributing their own chapter to Antarctic exploration. This shared adventure fosters a deep appreciation for Antarctica's majestic beauty among guests, guides, and crew, resulting in lasting memories and personal transformations.

← Back To Summary

LIFE ON BOARD

On Antarctica21 ships, we create a welcoming sanctuary for our guests.

Our boutique hospitality experience offers personal comfort and flexibility. Whether you seek privacy in your cabin, social interaction in the lounge, quiet reflection in the library, or fresh air on deck, our vessels cater to your preferences. Our attentive team ensures you're always informed and engaged throughout the journey.

CULINARY EXCELLENCE IN THE SOUTHERN OCEAN

Our skilled chefs craft varied menus with attention to detail, even in the remote Antarctic. Enjoy multiple courses, fresh salads, fruits, and pastries, complemented by premium Chilean wines and beers, all while enjoying breathtaking views of the Polar landscapes. Weather permitting, experience the unique thrill of a deck barbecue amidst the Antarctic landscape.

THE ANTARCTICA21 DIFFERENCE

Across our fleet, we maintain consistently high standards of service and experience. From informative briefings and social gatherings to bridge visits and attentive cabin service, every aspect of your journey is curated for excellence. We enhance your comfort with thoughtful amenities like reusable water bottles, premium bath products, and nightly turndown service with chocolates.

TAILORED ONBOARD EXPERIENCES

While our core values remain consistent, each ship offers a unique atmosphere. Modern and elegant, Magellan Explorer and Magellan Discoverer boast private balconies in most cabins, perfect for enjoying Antarctica's breathtaking views. Regardless of your choice, you will enjoy a friendly ambiance, comfortable accommodation, and knowledgeable staff dedicated to making your Antarctic expedition truly exceptional.

RESPONSIBLE TOURISM IN ANTARCTICA & THE SUB-ANTARCTIC REGIONS

Antarctica21 is a small, independent, Chilean-owned, and managed company. When you travel with Antarctica21, you support specialized, small-scale tourism in Chile. Your travel investment with Antarctica21 creates local employment and directly benefits the country's developing economy.

↓ Wedell Seal

© F. Andreas

Our team is made up of specialized and passionate individuals who care deeply about Antarctica and the Southern Ocean. We handcraft each experience with love, working as a family and welcoming our expedition guests into that family.

Our team ensures that every Antarctica21 expedition is carried out in a sustainable, responsible way, according to the stringent requirements of the Antarctic Treaty and the rigorous guidelines of the International Association of Antarctica Tour Operators (IAATO), of which Antarctica21 is a full and active member.

Our Expedition Team will lead you on an inspiring and satisfying adventure while maintaining the integrity of Antarctica's environment and wildlife species.

RESPONSIBLE TRAVELER GUIDELINES

- Never disturb or feed wildlife on land or at sea, allow wildlife to instigate all interactions.
- Don't take souvenirs (for example rocks, feathers, bones, etc.)
- Don't leave anything behind. Take home everything you brought with you.
- Never walk on moss and lichens. It takes years to grow back.
- When ashore, keep at least 5 meters (15 feet) distance from all animals.
- While kayaking, keep at least 100 meters (328 feet) distance from whales and seals.
- Avoid blocking the 'walkways' between penguin colonies and their water entry and exit points.
- Use the provided facilities to decontaminate your boots and help protect the ecosystem from foreign bacteria or seeds.
- There are no bathrooms available at landings in Antarctica. Make sure to use the facilities on board before excursions.

RESPONSIBLE PHOTOGRAPHY GUIDELINES

- Flash photography is not allowed; it might spook the animals.
- Read about Antarctic wildlife species and learn to read their behavior.
- If an animal appears distressed, stop taking photos and move away slowly and immediately.

← Back To Summary

OUR COMMITMENT TO SUSTAINABILITY

Antarctica21 is committed to leading sustainable travel in Antarctica, setting the highest standard in environmental protection, travelers' safety, and the promotion of science, education, and awareness about this unique ecosystem.

Our vision for 2030 is to be recognized as an exemplary model of responsible travel in Antarctica and Sub-Antarctica, providing unique and unforgettable experiences that inspire people from around the world to value and preserve this last wild and unexplored corner of our planet. Through continuous innovation, collaboration with the scientific community, and respect for wildlife and ecosystems, we are committed to ensuring that future generations can enjoy and learn from this iconic region just as we do today.

OUR ONGOING SUSTAINABILITY EFFORTS

Technological Innovation: Magellan Explorer is equipped with advanced technologies for the efficient use of resources, including a heat recovery system for the ship's heating and water supply, reducing waste and energy use. Additionally, Marorka's onboard software helps optimize the ship's fuel consumption and lower emissions by monitoring the use of engines and generators.

Carbon Offsetting: In addition to efforts to reduce our carbon emissions, we purchase carbon credits in wind energy projects in Chile and Guatemala to offset emissions and support renewable energy production. Our certification process helps identify improvement areas, and while we currently offset emissions, our goal is to achieve net-zero emissions.

Environmental Protection: Being a member of the International Association of Antarctica Tour Operators (IAATO), and a CarbonNeutral® certified company, we prioritize every detail to minimize our impact on this delicate ecosystem. We have also partnered with Deloitte to establish a comprehensive sustainability strategy based on the environmental, social, and governance (ESG) framework.

ANTARCTICA21'S SUSTAINABILITY POLICY

At Antarctica21, we aim to foster a sustainable corporate culture focused on good governance and societal and environmental practices.
The policy includes:

- Sustainable Business & Excellence
- Social & Scientific Impact
- Environmental Responsibility

Learn more at www.antarctica21.com/sustainability

LEARN WITH A21CONNECT

An Antarctica21 program where education, experience, and science converge.

↑ Lecture on board Magellan Explorer

Opportunities for understanding and gaining knowledge are weaved in throughout your journey, with multiple touch points through this program.

Our expedition team offers engaging presentations on board the ship and interpretation in the field. Additionally, there are several one-on-one moments throughout your journey, where conversations with team members build upon the day's experiences, leading to contextualized understanding. Thanks to the small scale of our operation, those moments happen frequently: in the lounge, in the dining room, on deck, during a Zodiac cruise, and on countless other opportunities. Finally, we offer interactive workshops where you can participate and learn: open discussions, photography workshops, citizen science programs that collect data in support of scientists around the world, and more. Through A21CONNECT, Antarctica, a distant and mysterious region, is revealed in action.

Did you know? If you added up our expedition team members' total time spent in the polar regions, it would amount to over a century!

ANTARCTICA21 FOUNDATION

The Antarctica21 Foundation was established in 2021 as a vehicle for participation in a variety of programs focused on Antarctica. The foundation undertakes activities in support of science, art, conservation, and education, thereby contributing to the creation of Antarctic knowledge and to the transfer of that knowledge to wide segments of society.

For every guest that travels with Antarctica21, the company donates $50 USD to support the foundation's projects.

PROJECTS UNDER DEVELOPMENT

Antarctic Time Tunnel
Located at Explorers House, it is a space that presents the natural and cultural history of Antarctica.

Onboard Science
A program that uses Antarctica21 ships as platforms for the collection of scientific data in Antarctica.

Green Energy
A pilot project to evaluate the possible use of green hydrogen as an energy source for Antarctic bases.

Discover more projects under development at fundaciona21.com

PLANNING YOUR TRIP

© K. Parada

ARRIVAL & DEPARTURE DETAILS

Review the important details below about arrival and departure for your air-cruise, and make your travel plans accordingly. Ask your booking agent for assistance as needed.

↓ Punta Arenas Airport

GETTING TO YOUR ANTARCTIC GATEWAY

Depending on your air-cruise itinerary, you will be using Punta Arenas, Chile and/or Ushuaia, Argentina as your Antarctic gateway.

Many international airlines land daily at Santiago's Arturo Merino Benitez airport. From there, several airlines connect the capital of Chile and Punta Arenas.

Many international flights also land daily at the Buenos Aires international airport, Ezeiza. Connections to Ushuaia are available from Ezeiza airport and the domestic Aeroparque airport. Overland transportation by bus between Punta Arenas and Ushuaia, a 12-hour journey, is also available.

TRIPS STARTING IN PUNTA ARENAS

If you are joining an air-cruise starting in Punta Arenas, you must plan to arrive with a flight that is scheduled to land in Punta Arenas before 2 PM on Day 1 of the itinerary. If you plan to arrive directly at our hotel, for example from Torres Del Paine National Park, you must arrive before 2 PM.

That afternoon, all travelers must attend a mandatory safety and Antarctic guidelines briefing and an information session covering important and practical details. You will also receive guidance on sizing and the delivery process for your expedition boots. Participation in these activities is essential for the success of the expedition.

Travelers who miss the 2 PM arrival deadline will be considered "no-show", and they will not be able to participate in the expedition and will receive no refund.

Remember that scheduling tight connections is never wise when traveling to remote places with limited services. Protect your travel investment by building some buffer time in your travel plans in case of problems with luggage delivery, flight delays, etc. In case your flight to Punta Arenas is delayed for reasons beyond your control, Antarctica21 will do everything possible to accommodate your late arrival. However, Antarctica21 cannot assume any responsibility for any resulting complications, including your inability to join the expedition. We recommend that you purchase a trip cancellation and interruption insurance policy to cover this risk.

TRIPS ENDING IN PUNTA ARENAS

Antarctica21 strongly suggests that any travel plans made for the last day of the expedition do not start until the late afternoon and that a flexible air ticket be held for your journey home in case you need to change your travel arrangement following a delay of the return flight from Antarctica. Please ask your travel consultant for assistance. See also the sections on possible flight delays and related contingency plans outlined on page 43.

TRIPS STARTING IN USHUAIA

For Antarctica Express Air-Cruises: boarding in Ushuaia is between 3 PM and 4 PM, directly at the pier. Boarding will close at 4 PM.

TRIPS ENDING IN USHUAIA

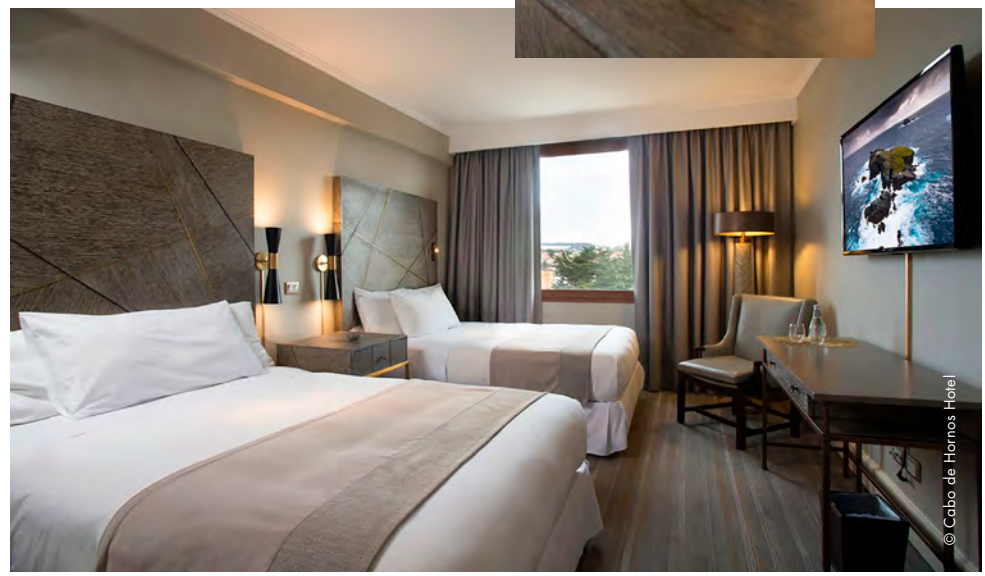

Arrival back in Ushuaia is planned for the morning. However, delays are possible. Antarctica21 strongly suggests that any travel plans made for the last day of the expedition do not start until the late afternoon.

← Back To Summary

HOTEL & TRANSFER PACKAGE

Review the important details below about arrival and departure for your air-cruise, and make your travel plans accordingly. Ask your booking agent for assistance as needed.

© Cabo de Hornos Hotel

© Cabo de Hornos Hotel

© Cabo de Hornos Hotel

Most air-cruises start and end in Punta Arenas. Should you wish to arrive in Punta Arenas a day earlier or spend an extra night after you return from Antarctica, we offer a convenient Hotel & Transfer Package.

The package includes accommodation at the Cabo de Hornos Hotel or similar and combines perfectly with your Antarctic air-cruise. With a single check-in you will ensure that the hotel room for your extra night in Punta Arenas is the same as that included in your air-cruise itinerary.

The package is available pre-expedition and post-expedition and includes:

- Dedicated group airport transfers
- 1-night hotel accommodation
- Breakfast
- Access to Explorers House

Please inquire at time of reservation.

CANCELLATION CONDITIONS

In the case of cancellation 120 days or more prior to departure, Antarctica21 will refund 50% of the amount paid. In the case of cancellation 119 days or less prior to departure, there will be no refund.

Please note that Antarctica21 only offers airport transfers as part of its packages. Antarctica21 does not arrange individual airport transfers.

↓ Mount Fitz Roy

PRIVATE JET CHARTERS

↓ Beagle Channel

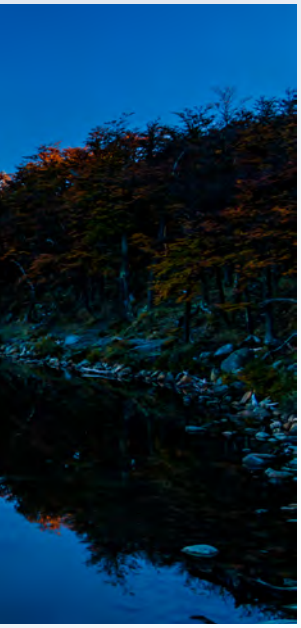

Antarctica21 can assist you and your family and friends by arranging transportation by private jet between Santiago and Punta Arenas. We can also assist you with arranging charter flights from Punta Arenas to other destinations in Patagonia, such as Puerto Natales, Puerto Williams, Pampa Guanaco, Balmaceda, or Coyhaique in Chile, and Ushuaia or El Calafate, in Argentina.

Speak to your Booking Agent for further details.

PACKING FOR YOUR TRIP

SUGGESTED CLOTHING

During the austral summer the average temperature around the Antarctic Peninsula area is about 0°C (32°F), although sometimes it may feel lower because of the wind chill factor. For this reason, it is best to wear several layers of light, warm clothing. The suggested clothing for Antarctica is very similar to recommended gear for skiing: thermal underwear, a couple of warm and wicking mid-layers, a windproof and waterproof jacket, plus pants as the outer layer. You will also need a hat, a scarf, waterproof and insulated gloves, and sunglasses with high UV protection. The pre-departure material provides further details. We also suggest packing comfortable clothes to wear on board, as well as rubber-soled shoes for walking around on the outside decks.

EXPEDITION JACKET

Our signature waterproof expedition jacket has been hand-selected for you as the perfect, technical outer shell for use on our Antarctic air-cruises.

Crafted for offshore and coastal sailing, the Skagen Offshore Jacket is designed with input from professional sail racers for ultimate performance. It features HELLY TECH® Performance technology for weather protection, Cordura fabric for durability, and adjustable elements for a customized fit. Additional features include a neon yellow hood, fleece-lined collar, SOLAS reflective elements, and ocean-bound recycled materials sourced from regions vulnerable to plastic pollution.

- Only available in the Antarctica21 Gear Shop at www.antarctica21.com/gearshop
- Note: Jacket model is subject to change. Please review model and price at the time of purchase.

© E. Harris

WATERPROOF BOOTS & CLOTHING

On the first day of your program, Antarctica21's staff will deliver a pair of boots for landing in Antarctica. For guests departing from Ushuaia, boots will be distributed on board the ship. Boots are provided on loan and will be collected before the end of the trip. We highly recommend that you pack waterproof outer layers to keep dry during Zodiac excursions and landings.

FACE PROTECTION

Good quality UV filtering sunglasses are essential. Glacier glasses have leather flaps at the sides to stop the light from passing through. Due to the high reflectance of UV radiation, you will also need good sunblock lotion for your face (SPF 30 and above) and lip balm.

PHOTOGRAPHY

To see wildlife, you should have a good pair of lightweight binoculars (the suggested magnification is 7x or 8x). If you are passionate about photography, do not forget a good zoom lens to shoot wildlife while avoiding close approaches. Also, pack a good supply of memory cards and spare batteries since cold temperatures can reduce their life span. The recreational use of drones is not allowed in Antarctica.

TRAVEL REQUIREMENTS

All travelers should check the entry requirements, including vaccinations and visa terms, of the countries visited during their trip, based on their nationality. Antarctica Express and Antarctica & South Georgia Air-Cruises visit Chile, Argentina and United Kingdom (for South Georgia) so the requirements of these countries should be considered.

DIETARY INFORMATION

Requests regarding diets must be made on the Participation Form you receive prior to your trip. This information will be passed along to our staff so they can accommodate your needs while on your voyage.

© K. Parada

IMPORTANT PRE-TRAVEL REMINDERS

- Submit your participation form no later than 90 days prior to your trip
- Book flights according to the required arrival and departure times
- Purchase travel insurance, including medical evacuation and coverage
- See the clothing and gear recommendations
- Check the validity of your passport and obtain any required entry visas
- Ensure that your total checked luggage weight does not exceed the 20 kg (44 lbs) weight limit, and that your carry-on luggage does not exceed the 5 kg (11 lbs) weight limit.
- Review the Contingency Plan applicable to Antarctic flight delays

IMPORTANT TRIP DETAILS

THE NATURE OF EXPEDITION TRAVEL

Our air-cruise expeditions are suitable for adventurous travelers who enjoy full mobility and reasonably good health. Expedition travel to Antarctica requires flexibility and adaptation to ever-changing circumstances. There is no airport or port infrastructure at King George Island or anywhere in the Antarctic Peninsula. After landing, travelers board a transfer vehicle to reach the shore where Zodiacs awaits to take them to the ship.

YOUR TRAVEL COMPANIONS

Antarctica21 offers its expeditions worldwide. Each year we welcome travelers from over 40 different countries. They may travel alone, as a family, or as part of a group. While some of your traveling companions may speak different languages and have different customs, they will share your passion for adventure and interest in the natural world.

PARTICIPATION FORM

Participants are required to fill out and submit an online Participation Form and return it to Antarctica21 at least 90 days prior to departure, including a declaration confirming the participant is in good health to take part in the voyage.

MEDICAL INSURANCE

Antarctica21 requires participants to be adequately covered by a travel insurance policy that covers aero-medical evacuation from Antarctica in the case of a medical emergency during the trips, including emergencies related to pre-existing health conditions and pandemics.

CANCELLATION INSURANCE

Antarctica21 strongly urges participants to be adequately covered by trip cancellation and interruption insurance.

ITINERARY

Every effort will be made to adhere to the planned program. However, with this type of adventurous travel to Antarctica, changes to the itinerary may occur due to severe and changeable weather. We need to emphasize the fact that weather conditions are unpredictable, and safety is always the paramount concern on any Antarctic voyage. For this reason, Antarctica21 reserves the right to change the itinerary described due to weather conditions or other factors beyond Antarctica21's control without consulting the participants.

BAGGAGE AND BAGGAGE ALLOWANCE

We recommend that clients avoid expensive designer luggage that can be easily damaged. We also strongly recommend that clients take out a luggage insurance policy that covers the cost of repairs or replacement in case their luggage is damaged. Due to the nature of the expedition, and as stated in our Terms and Conditions of Sale, Antarctica21 cannot be responsible for any damage to a customer's luggage.

The maximum weight allowed on the flights to and from Antarctica is 25 kg (55 lbs) per person, including hand luggage, with each item not exceeding 20 kg (44 lbs). For Classic Antarctica and Polar Circle Air-Cruises, excess luggage will be kept in custody in Punta Arenas and returned to travelers after their time in Antarctica.

The baggage weight limit is a technical requirement imposed by the flight operation. Unfortunately, it is not possible to purchase extra allowance.

Note: At certain points during the expedition, you will be required to handle your own luggage.

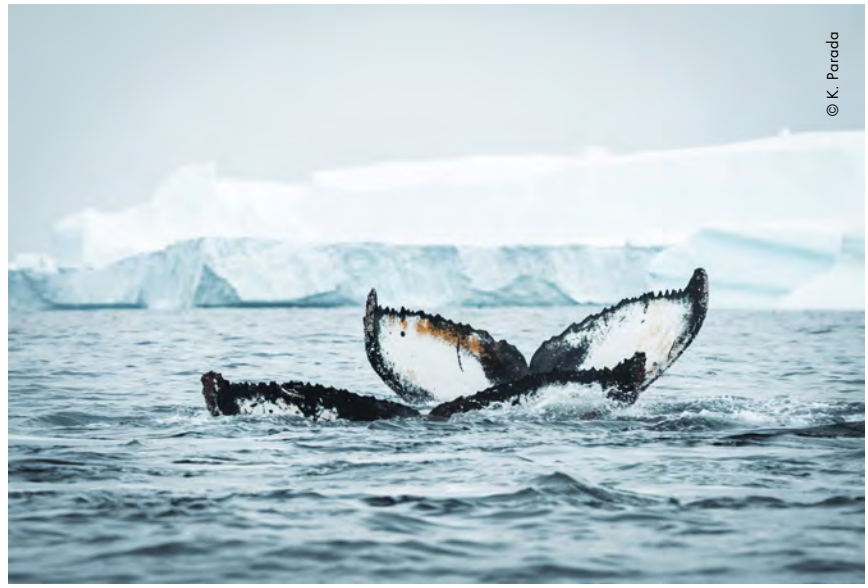

EXPEDITION LANGUAGE

The official expedition language of our air-cruises is English. The voyage will take travelers to remote destinations where interaction with our polar guides is essential. In the interest of safety and for the enjoyment of the experience we strongly recommend that travelers who do not understand English be accompanied by someone who does, such as a friend, a family member, or a Tour Leader.

ANTARCTIC FLIGHTS AND CONTINGENCY PLAN

Flights to and from Antarctica operate based on weather conditions. Occasionally, flight plans have to be adjusted, impacting itineraries. Carefully review page 43 and the Terms & Conditions located on our website and check the Contingency Plan applicable to your voyage. Speak to your booking agent if you have any questions.

CONTINGENCY PLAN

CONTINGENCY PLAN

Antarctica21 has been organizing Antarctic air-cruises since 2003. Over these years we have gained extensive experience in the delicate coordination of land, air, and sea operations in the extreme Antarctic environment. While historically most flights have operated on the scheduled day, in some instances weather conditions have required that adjustments to the departure time of Antarctic flights be made to avoid protracted delays. In the unlikely event that the flight to or from Antarctica cannot take place on the scheduled day due to unfavorable weather conditions, we will apply a Contingency Plan.

The Contingency Plan is included in the cost of your expedition. The primary goal of the plan is to provide an engaging and comfortable travel experience while we adapt to the weather and we keep you informed of developments, whether in Punta Arenas or Antarctica. A change in the flight schedule can impact travel to Antarctica or return to Punta Arenas, and the plan includes a range of activities determined by the circumstances. Additionally, the Contingency Plan offers you financial protection by providing a refund should weather conditions prevent us from reaching Antarctica.

TERMS & CONDITIONS

Please refer to the Contingency Plan and the complete list of Terms and Conditions at www.antarctica21.com/termsconditions.

THE HIGHLIGHTS

In case the outbound flight to Antarctica is moved forward

In some cases, it may be necessary to move forward the Antarctic flight to the afternoon or evening of Day 1 of the itinerary. This will result in an early departure from Punta Arenas and early arrival in Antarctica. It is one reason why it is important that guests arrive in Punta Arenas by 2 PM on Day 1 of the itinerary. Travelers who miss the 2 PM arrival deadline will be considered "no-show".

In case the outbound flight to Antarctica is delayed

The group will remain in Punta Arenas while waiting for an improvement in the weather and for the opportunity to fly to Antarctica. Included are accommodation, meals, and, when possible, based on the circumstances, guided excursions to local attractions. If by 2 PM on Day 4 of the itinerary it is still impossible to depart for Antarctica, the trip will be interrupted, and the cruise fare will be refunded.

In case the return flight to Punta Arenas is moved forward

In those cases when the forecast suggests the likelihood of unfavorable weather conditions in Antarctica persisting for several days, the flight back to Punta Arenas may be moved forward to the previous day to avoid a protracted delay in Antarctica. Accommodation is included upon arrival. All other inclusions will remain per the original itinerary. No refund will be extended.

In case the return flight to Punta Arenas is delayed

The group will remain in Antarctica and wait for the opportunity to fly to Punta Arenas. In the unlikely event that the delay exceeds two days, and the weather forecast indicates the impossibility to fly over several more days, the captain of the vessel may decide to sail back to South America for safety reasons. Included are meals and accommodation on the ship and local excursions. Upon arrival in Punta Arenas, the trip will end at the airport. Travelers are responsible for any expenses associated with the rescheduling of their airline tickets or onward travel plans.
